AMBULANCE LICENSING LAW EFFECTIVE JAN. 1, 1971

Ambulance personnel and businesses are reminded that the Ambulance Licensing Law, passed by the 1969 legislature, goes into effect Jan. 1, 1971. Farnham Polson, Acting Director of the State Emergency Medical Services Division said this week that, at that time, all vehicles and services must be licensed. He added that at least one person on an ambulance call must hold a state ambulance attendant license.

Polson said that the various licensing forms have been sent by the Division to all organizations and individuals on its mailing list. Included with the forms are the rules and regulations established in the new law and equipment requirements for operating an ambulance service.

He added that any organization or person who has not received the forms, but would like to, should write or call the Division of Emergency Medical Services, Department of Health and Welfare, in Augusta.

The Community Thanksgiving Service will be held on Wed., Nov. 25, at 7:30 p. m. at the West Parish Congregational Church. Mrs. Bernice Burris will bring the message.

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

The manner in which a Town Clerk is selected is an issue which should be resolved this coming year. In towns which have a town manager form of government there is a choice of that official being appointed or elected.

We have always elected that person but it is apparent the situation has changed since the Town Clerk's office is now in the Town Office. The secretary has served in that capacity since she was elected to the office. The system has worked very well thus far but in the event the Town Clerk's office were to be changed, the first question would be: where would the Clerk's office be located? It would seem doubtful if another person elected would want to spend full time in the Town Office. There is not that much work load nor would the return be enough that many could afford it.

From the reactions of the public, it would appear they are reasonably satisfied with the present conditions and I believe this should be protected by having the selectmen appoint.

A. James Fiske, a member of the science department at the S. A. D. 41 high school, was named Teacher of the Year Wednesday by the State Department of Education. At Telstar he is using an individualized instruction program which has won plaudits from the department.

A. James Fiske

In his chemistry classes a two-teacher team works with students as they progress at individual speeds. There are no lectures, no textbooks, no standardized tests.

Mr. Fiske started his teaching career as a part-time instructor at Dixfield Regional High School, later achieving full-time status.

Later he joined the faculty at Mexico High School and while there, shared in development of the individualized instruction program which he has continued to use since transferring to Telstar a year ago.

While teaching at Mexico, Mr. Fiske served on the S. A. D. 41 board. He is active in numerous community affairs and has been vice president and program chairman for the local chamber of commerce in Bethel.

In announcing the nomination, Maine Education Commissioner Kenneth S. Nickerson commended him for his forward-looking approach to the teaching of science, his ability to communicate with his students, and his active participation in civic affairs.

MRS. BROWNE SPEAKS TO SENIOR CITIZENS

The Senior Citizens met at Gardiner Chapel for a delicious noon meal Tuesday, served by members of the American Legion Auxiliary. Thirty-eight were present. A welcome guest was Mary Burns, Rev. Frederick Bailey was guest minister.

Mrs. Rena Abbott provided an elaborate and delicious birthday cake and honored for November were Dorothy Abbott, Pearl Tibbels, Lyle Martin and Adeline Dexter.

A musical program of a piano duet by Florence and Edith Thurston and group singing of old favorites was enjoyed.

Mrs. James Browne, at present returned to Bethel after four years of missionary training, spoke with sincere informality of the experiences of her family. She told of the conversion of herself and husband, of the interest and enthusiasm of their three adolescent children and final decision to volunteer for service with the New Tribes Mission.

One year in boot training was spent in New Jersey thence on to Missouri. The training is intense and covers all phases and contacts and includes a year of jungle service. She considers it a valuable asset in youth development, human relations and growth of Christian character. Her two brief talks were well received.

With their three growing children, now attending Telstar Regional High School, James and Pauline Browne are enjoying living in Miss Ida Packard's house on Bridge Street. Jim is working with George Olson, carpenter, while they await final orders for emigrating to Venezuela in the Indian village of Cana Cana. They look forward to a five year term teaching and demonstrating Christian living.

Regular meeting of Mundt Allen Unit American Legion Auxiliary will be held at the Legion Home, Vernon Street, at 8 o'clock, Tuesday evening, Nov. 24.

DISTRICT 4 DIRECTORS HOLD REGULAR MEETING MONDAY EVENING

The board of directors of School Administrative District 41 held a regular meeting at Telstar Regional High School on Monday evening of this week.

Richard McCann, chairman of the Social Science Department at Telstar, reported the goals and objectives of his department. He spoke of teaching for change and felt that the Social Science Department was in a particularly good position to do this. The department is at work on its philosophy and Mr. McCann discussed its major objectives. He said that the department is making continuous evaluation to eliminate duplication throughout the kindergarten through grade 12 social science curriculum.

Parker Allen of Woodstock reported on the Region IX School Board meeting held at Oxford Hills High School on Nov. 12. He reported that several recommendations of the Maine Superintendents Association regarding legislation were discussed. Several state legislators from the area were present. Superintendent Robert J. Gerardi and John Brown, Bethel, vice chairman of the board, also attended the meeting.

Bernard Gatchell, the new superintendent of buildings, grounds and transportation, was introduced to the board. Mr. Gatchell started his duties in the district on Nov. 9, and had a week's orientation in the position with his predecessor, Frank Hunt.

The board granted permission to Gudmund International to distribute New Testaments to members of the high grades in S. A. D. 41, who are over 16.

Also granted was permission to the Bethel Methodist Church to use Telstar facilities on Dec. 12 for the cent of custodians and law enforcement personnel as required.

The directors voted to allow Sunday River Skiway to use Telstar owner facilities for 20 soldiers for one week starting Jan. 4, 1971, on a trial basis. If the arrangement is satisfactory permission could be given to extend for a full six-week period ending Feb. 13. Financial arrangements are at the discretion of the superintendent.

The Bethel Pond Baptist Church was granted permission to extend their parking lot across the side — continued on page four

TELSTAR BUILDING EMPTIED FOLLOWING BOMB THREAT

The Telstar Regional High School facility was evacuated last Friday noon after a telephone call stating there was a bomb in the building. Approximately 600 students of the junior-senior high school, and over 50 staff personnel left the structure.

The majority of the students were transported home by bus after assembling on the school's athletic field for home room roll call. The balance left the premises by private car, except those with a walking distance of the school.

Following the evacuation of the building, a thorough search was made by administrative personnel, custodians, members of the Bethel fire department, deputy sheriffs and State Police. Nothing of a suspicious nature was found, but as a precautionary measure the building was officially closed until midnight Sunday on advice of law enforcement authorities.

Seven Telstar students are scheduled to appear in District Court at Rumford on Monday, Nov. 23, in connection with the bomb.

Investigating the incident were State Trooper Gerald Smith and Oxford County Deputy Sheriff Joseph Smallwood.

Mrs. Wendell Twitchell attended the conference in Portland on Friday held for the reading teachers who are involved in Title I projects.

Mrs. Twitchell is head teacher for Spearhead Project at Rumford Center School. This is an experimental project for children with perceptual learning disabilities.

The Boarding House ladies, namely Jessie Cora Twitchell, Lilla McAllister, Jessie Andrews and Agnes Gray, had their annual get-together Monday recently by having a dinner at the Chickadee in Turner. They went to Rumford on the way and called on Clara Jackson as they came through Milton. They had supper at Country Way at So. Paris that evening. They had a real good day together.

Our Blackie cat was caught in a trap yesterday. His front foot is badly swollen but I guess it isn't broken. I guess I'm all off on trapping on our land. Please don't do it any more. Have a heart!

Callers at Mr. and Mrs. Ellis Davis Sunday were Mr. and Mrs. Lealie Bryant and Eugene Buswell and family of Bethel.

Mrs. Guyson Davis took care of her granddaughter Jacqueline Tobbetts Saturday while her parents, Mr. and Mrs. Roger Tibbetts were hunting in Ketchum. They came back with a deer for their days' hunt.

Stuart Thurlow, who is in the Air Force in Florida had the misfortune to injure his knee and has spent some time in the hospital. He had an operation on it so it will be some time before he will be traveling around. His address is AIG Stuart A. Thurlow 066-52-4675, Sq. 435, TFS CMR 6781 Homestead AFB, Florida 33030. Mrs. R. M. Fleet, Corres.
Dr. Loy Harrell left on a hunting trip Wednesday but returned Sunday with no game, but he had a five inch snow to get out of to return home.

LeRoy Barker was in town Friday to look after the light wires as Fred Barker moved a good sized tree from his place to Bryce Yates. We hope it lives then Bryce's dog Jo will have a nearer place to chase his game. It's a maple and has many limbs.

Dale Thurston called on the R. M. Fleet Thursday evening.

More plans are underway for our Christmas program.

Mrs. Isobel Rolfe and friend of North Waterford called on her daughter and family, the David Fleets.

Mrs. Laurel Harrell and children and Mrs. Janina Lavalley went shopping Saturday.

The snow that started real early Sunday morning kept it up all day, but was jolied by rain at times during the day. So all we have left tonight is one and a half inches. Last year we had our first snow storm in early October.

GREENWOOD CITY

Mrs. Colista Morgan, Corres.
The round full moon appears again and is the color of pumpkins. Most of the night is silent as the moon walks the sky but occasionally there comes the calling of the autumn owl claiming the night for himself. The call has a frosty edge and a lonesome wail from far beyond the pond. Although just a part of an autumn night he brings the sliver of winter.

Along the country road from the dampness of recent rains there is still the eddy smell of apples, the smell of weeds and the muddy smell of the pond.

The geese that flew in to Maine's delicate lacy foliage so short a time ago now fly in triangles, migrating and uttering their gabbie. How restless they seem as on and on they fly, never wavering over towns and cities or farms. We listen to their echo of freedom as they depart taking summer with them.

Sitting by the window, looking toward the pond; listening to the patter of rain on the roof, or watching the golden moon aloft among the blazing stars of November one thinks of the magic of the changing seasons and how each thrives from something left by the season before.

The night wears away. Stars turn toward the west as does the moon. Deep in the night moon makes a path across the water and looks in through my bedroom window, then soon each goes out. But up the sky with a trail of cumulus clouds like a flock of pink sheep the sun

rises once more over the Maine hills.

At the farm this week we have had a rare bird for this section which I had never seen here before. It was pure white with long dark legs and feet and a yellow orange bill.

I spent some time stalking it and getting pictures. I presume it was the American Egret.

Mrs. Clyde Morgan and Ann Holt were in Lewiston on Saturday to visit Bernard Morgan who is a patient at the C. M. G. Hospital.

David Holt attended the student council at Rumford on Friday and Saturday.

Mrs. Fay Holt, Ann Holt, and Mrs. Colista Morgan, were callers on Saturday at Mr. and Mrs. Harold Holt's and Mr. and Mrs. Clarence Cummings, South Paris.

On Tuesday evening, Ruth Hastings had supper with Mr. and Mrs. Clyde Morgan, then spent the evening with Mr. and Mrs. Leonas Holt and family, where Colista Morgan showed slides of trips taken this fall. Ruth was presented a painting by Fay Holt of a scene taken from the trail down from Table Rock. Ruth's daughter, Barbara, and friend, Charlotte, Montana, were with us on that trip.

A flock of migrating ducks flew into the pond Sunday morning.

Callers this week at Mr. and Mrs. Clyde Morgan were: Lewis Britton and daughter, South Paris, James Johnston, principal, at Woodstock

Leslie Fullers old dog, "Bozo" died Sunday night after a few days illness. Bozo was over 20 years old.

Friday the 13th was a day full of "luck" of one kind or another. I nearly forgot the food sale, but, by chance, was reminded so escaped my name being mud for a quarter century more or less. I left a pan of food cooking and came home to find the fire had not died down under it as it used to on the wood stove, so pan and food were burned. I missed being smacked by a driver backing out of a parking lot while looking straight ahead; but the final touch came in the evening when

the week end to bring her mother, Mrs. Raymond Bennett, home. Mrs. Bennett had been guest of the Tylers in Elliot for a week.

We had the first snow of the season on Sunday, one inch or more. It was all gone Monday.

Mrs. Steve Wilson and two children of Waterford were in town on the week end to visit her parents, Mr. and Mrs. Raymond Bennett and sister and husband, Mr. and Mrs. Lawrence Davis.

one of the food sale committee asked me to take them home. Their transportation hadn't come and they were stranded with a load of equipment and some left-over food. We put the stuff in the car and drove down and uphill, in and out of steep driveways, but about an hour later someone started checking the whereabouts of a pie belonging to another member. After checking the plausible spots, it was discovered on the roof of the car! I wonder how long it would have ridden there if it had not been noticed?

John Weeks, Bill Taylor and sons have been visiting the Colon Fullers.

Judy Brooks spent the week end with her father, Fred Judkins. She returned to Bryant Pond early because of the storm.

Howard Douglass was the first local victim of the snow and slippery roads. He plans to go to Florida soon and did not have snow tires so needed help getting back up the hill to home.

The church belfry light and street-light on the corner nearby have both been out for several nights. The streetlight by Judkins' Market was shot out one night last week.

MAKE PAPER - While studying a unit on forest regions, Mrs. Tripp's combined 4th grade social studies class at Woodstock Elementary School, decided to make paper. Each student made his own small sheet of paper using equipment and materials provided by Telstar's Industrial Arts Department. Though the paper sample could hardly be called a quality product it did demonstrate some basic steps in the commercial process of paper making.

NEW BOOKS AT THE BETHEL LIBRARY

"Whitewater," by Paul Morgan, a marvelous novel about high school kids.

"The Voyage of Franz Joseph," by James Yaffee. Aboard the luxury liner, Franz Joseph, are more than a thousand Jews who have paid Hitler a small fortune to escape from Germany in 1939. Suddenly while they are on the high seas, the Cuban government has revoked their entry visas, and they are faced with returning to Germany and almost certain internment and death unless another country agrees to take them in.

"Down All the Days," by Christy Brown. Christy Brown's writing may be the single greatest triumph of a human being over adversity. It is certainly the greatest work of art ever created by a wholly handicapped person. Born with cerebral palsy, Christy Brown is one of 22 children raised in a Dublin shanty in which he still lives, though now rich. His book is being translated into every European language.

REV. BEAN DESCRIBED IN CHASE WRITINGS

Maine writer Mary Ellen Chase in her books "The Goodly Heritage" and "The White Gale" includes a description of Rev. Ebenezer Bean. A chapter "The Lord's Day in the Nineties" tells of his fine appearance and also that a sled or cart in the driveway on Sunday was unthinkable. Amusement was not the order of the day, knitting knobby were rushed out of sight when grandmother appeared, then the five little machines must be placed in a row on the mantle all through the Sunday; books were substituted quickly when grown-ups came near. So children were not unmatured, a distraction in church when it was expanded that the Lord was about to come in the open door and the door opened and a dog came in—a laugh brought on instant trepidation with the thought of smile for sin.

Bethel Library, page 476 of the new Bean Genealogy gives the record of Rev. Ebenezer. Though he was not as prominent in Blue Hill as Rev. Johnathan Fisher, the record is of a great Congregational man of New England.

Page 471 relates there is a famous story of Christine Olin in early American history when Indians were hostile. Her mother and sister were killed—this account is contained under the name of Captain Benjamin Bean. Does anyone know this story? So much early history will never be known by our boys and girls because of lack of time. The seven Heritage Trails are a must for a family vacation in order to give children a quick knowledge of settlement in America.

PHILATELIC SHOW AT AUBURN, NOV. 22

An International display of the small bits of colorful paper that have simplified communications between men and between nations, are the subject of a meeting in Auburn, on Sunday, Nov. 22, when the Maine Philatelic Society joins in world wide celebration of the Twenty-Fifth Anniversary of the United Nations. The Show is to be staged at the Holiday Inn beginning at one o'clock. Admission will be free.

This year's participation in National Stamp Collecting Week, Nov. 18-22 by the Maine Philatelic Society is part of the annual observation of the hobby that has become universal; more so with the advent of United Nations Stamps in 1951, and which have become among the most popular among hobbyists. The 1970 Stamp Collection Week Celebration, coinciding with the National Postage Stamp Show at New York Madison Square Garden, will feature a "mini" Stamp Exhibition. The event in Auburn is also to include a United Nations exhibit and discussions on the work of the United Nations, with Harold Karkos of Wilton as leader.

In addition to the one day Stamp Show at Auburn, the Maine Philatelic Society has encouraged "mini" exhibitions of member clubs throughout the State. Directing the Maine Stamp Week observance is Harry Haines Jr. of Monmouth, aided by Vinton Yeaton of North Berwick and Leon F. Dow of Livermore Falls.

The different breeds of cat.

The Lynx is for the loner. Lighter and lower-priced for the single rider, but still a very tough cat. And it has standard Arctic Cat safety features like twin-beam headlights, dual taillights, safety reflectors, wraparound bumper and forward mounted engine.

The Puma evolved from one of the most successful racing machines in history. Now it's an all purpose snowmobile with a shorter, lighter chassis, new gearing, track length and track angle adjustment for maximum traction, new hood design, and new rider and control placement. The Puma will outperform any machine on skis.

The Panther is the family cat. Rugged, powerful, but smooth and steady on our torsion spring/slide rail suspension system. You choose from a variety of Arctic Cat competition-tested engines.

The EXT was bred for racing. With winning features like higher handlebars, and a special rider position, racing shocks, collision protected gas tank, and Arctic Cat's famous lightweight all-riveted aluminum chassis. The different breeds of cat. For a different breed of sportsman.

ALBANY HUNT'S CORNER AND VICINITY

Harlan Bumpus, Correspondent

WHY WE LIKE DEER HUNTING: One morning last week I was blasted out of bed around 6:30. I saw from a window four or five men, three cars (one out-of-state), and one dead deer under an apple tree with a "no-hunting" sign on it. Another deer was dragged across the field by the apple tree bearing the "no-hunting" sign. Both deer were hurriedly loaded into the vehicles without dressing and all were gone in 15 minutes. This took place in an open field within half a mile shot of three houses, one camp, and a pasture with livestock in it. Is this what "no-hunting" signs are for?

Mrs. Sarah Andrews and her sister, Mrs. Bertha Kimball, of South Waterford, were shopping in Lewiston Tuesday, and they visited Mr. and Mrs. Linwood Andrews and daughter in Auburn.

WHAT IS DIABETES?

Normally, the sugars and starches in food are converted to a form of sugar called glucose. With the aid of insulin, a natural hormone manufactured in the pancreas, the blood stream distributes this glucose to the body cells where it is converted into ready energy or stored for future use.

You may have diabetes when the pancreas fails to produce enough effective insulin. The glucose then accumulates in the blood, and sometimes spills over into the urine. The symptoms, when there are some, may be frequent urination, abnormal thirst, hunger and loss of weight, weakness, itching, blurring of vision and possibly skin infection. Have you had a diabetes test recently? If not, let your physician check you.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.

THANKSGIVING

We may be thankful IN everything, if not FOR everything. There are things for which we can not be thankful, but if we look deep enough, we may see something in everything that is just cause for thanksgiving. We can at least be thankful that the wrong things are not the permanent things; that we have the glorious task of helping destroy them; that here is our opportunity of rendering service to a needy world—a purpose and a reason for living.

Truly there is much in the world FOR which — and IN which — we can be thankful.
